CERTIFICATE

In 2021 the *Academy of Justice*, with its registered office in Warsaw, chaired a network of academies carrying out training and research in the field of penitentiary, security and forensic science – The European Prison Training Academies (EPTA).

The Presidency was previously entrusted to entities with a stable national and international position. Entrusting the task of chairing an international, European consortium implementing EU grants is not only a proof of trust of EPTA members, but also a recognition of the academy itself.

We certify that the Presidency of Academy of Justice had an impact on the development direction of EPTA. Throughout the term of office, Academy of Justice was part of EPTA's Steering Committee. In addition, it was the main organizer and host of the annual conference: *EPTA Annual Conference 2021 (21-23.09.2021, Warsaw)*, an international conference on the subject "Prison Services in times of COVID: Impact on training and teaching", which hosted speakers from several EPTA member institutions.
